

**Frustrated by inaccurate inventory?**

**Want alerts on your phone?**

# MASTER RESIN INVENTORY

## **No running power.**

The battery-powered SPL-200 level sensor measures resin pellets, powders, and flakes. Measure silo levels once an hour with 3-year battery life.

## **No wiring.**

Simple three-step setup is fast. Install the level sensor. Power and aim the sensor. Connect to the cloud. Save the hassle and the money!

**Replace frustration with innovation today**
